

Naturalization and Citizenship records

Naturalization occurs when people who were born outside of the USA are granted US citizenship. When a man was naturalised, his wife and minor children also became citizens. Most people naturalized between 1790 and 1952:

- filed a declaration of intention (any time after immigrating)
- petitioned for naturalization (five or more years after immigrating)

Naturalization records after 1906 include place and date of birth of the immigrant. Records before 1906 do not provide this information.

To be naturalized the applicant needed to be over 21 and to have been in the US for 5 years.

² Only close reference in civil records is John Hayde b 20 Apr 1874 in Cashel, the son of Robert and Mary Mahony in Fethard. However, this person joined British army in 1891 and was discharged in 1897. His Naturalisation records say that he embarked Liverpool 10 July 1888 on steamer Nubric (?) and arrived 10 days later. I cannot find these arrival records.
